GENERAL

NL/015/002

Environmentally friendly all-in-one dishwasher capsules

- Suitable for cleaning dishes without rinse aid and water-softening salt
- Suitable for household and semi-professional dishwashers
- Degreases and leaves dishes with a brilliant shine
- In soluble foil

pH 10,6
Cleaning Power Powerful

USAGE

One capsule contains sufficient detergent for one wash. Place capsule into the machine dispenser. Do not remove film from the capsule to avoid contact with skin.

Select a dishwashing program at low temperature (45/50°C). For a good result, do not choose a glassware or extra short program. Wash with a full machine and do not dose more than one capsule. A correct dose saves costs and causes less damage to the environment.

Do not mix with other cleaning agents. The capsules are not suitable for silver. Store in a cool and dry place.

Only use this product for its specified purposes. If in doubt, first test the product in an inconspicuous area. BOMA is not responsible for any damages if the product is used incorrectly. Consult the Safety Data Sheet (SDS) for additional information.
