

## Glass Cleaning Microfibre Cloth - 40 x 40 cm - blue

### GENERAL

3083 0019

Durable, microfibre glass cleaning cloth for quick and streak-free cleaning of glass, windows and mirrors.

- Can be washed at least 600 times.
- Highly absorbent.
- Strong edge finish, so that the glass cloth does not shrink.
- Does not leave any fluff or fibres.
- Nordic Swan Ecolabel.

### USAGE

1. Before using the first time, wash the cloth once in the washing machine.
2. Used dry, it is an ideal dust cloth. Slightly damp, it removes dust and dirt without detergent, leaving no wipe marks. For damp cleaning: Spray on the cloth with a spray bottle or pre-soak. Use 500 ml of water for 15 cloths. Place half of the microfibre cloths in a bucket. Add 250 ml of water (with detergent). Place the remaining cloths in the bucket and add another 250 ml of water. The mops are now damp enough to ensure optimal use.
3. Fold the cloth (3x double).
4. Use all 16 surfaces one by one, change regularly.
5. We recommend washing the cloths at 60° C using a washing detergent suitable for coloured fabrics. Lower washing temperatures help protect the environment.
