CORRIDOR® JEWEL S 741

High-performance dispersion

Application and dosage

**Preliminaries:**

Strip the floor covering using Corridor® Power Stripper S 708, for example. Rinse the covering, leave to dry. Linoleum coverings can retain some residual dampness.

Coating:

neat

Apply 2-3 coats. Each coat must be left to dry.

**Cleaners:**

1:3 with water

Note

Protect against frost.

Allow the flooring to dry following thorough cleaning if possible. Each coat must dry separately. A single, temporary exposure to the surface without mechanics is tested in comparison to customary disinfectants (max. 15 minutes permanent stress) and causes no damage to the coating surface.
