

Product information

Winglet with standard coupling

Characteristics

- Lightweight;
- Very flat (no accumulation of dirt);
- Easy to clean;
- Flexible suitability due to raised ends.

The new Greenspeed[®] Winglet is a new, stylized flatmop plate with a surprising design. The most important characteristic is that the ends of this plate can be raised. The plate then looks like a wing, hence the name Winglet.

Due to the raised part of 5 to 10 cm, the Winglet effectively cleans skirting-boards.

The plate is fitted with a free space in the centre, which enables you to use your foot to free the mop from the plate. The plate is made of durable, impact resistant synthetic material, fitted with easy to use Velcro and is equipped with a coupling with two pushpins, fitting onto a 22 mm handle with holes.

The Winglet is available in different sizes.

Specifications

Colour	green
Dimensions	30 cm (26/30 x 9) 40 cm (36/40 x 9) 55 cm (52/56 x 9)
Composition	synthetic material (ABS/PC)
Weight	± 180 grams (30 cm) ± 250 grams (40 cm) ± 330 grams (56 cm)
