

Liquid mechanical ware washing detergent for medium hard water, safe on aluminium

Description

Suma Jade Pur-Eco L8 is a non-corrosive mechanical ware washing detergent specially formulated to provide excellent soil removal in medium hard and hard water conditions.

Key properties

Suma Jade Pur-Eco L8 is a non-corrosive formulation, which combines safety with performance. It contains a blend of alkali and powerful scale control agents, which will provide excellent removal of fats and dried on food. This unique combination of ingredients is also suitable for use on soft metal surfaces such as aluminium. The powerful scale control agents will prevent scaling in hard water conditions.

Benefits

- Effectively removes grease and dried on foods
- Concentrated formulation gives economy in use
- Safe for patterns and glazes on the ware
- Safe for washing aluminium
- Prevents scaling of the dish wash machine in medium to hard water conditions
- EU Ecolabel certified

Use Instructions

Suma Jade Pur-Eco L8 is normally applied using Diversey automatic dispensing equipment and is suitable for use in a wide range of single and multitank ware washing machines.

Before first use rinse pump and transport tubes of the dosing system to avoid product crystallization caused by mixing with previously used products.

Attempt to wash full machines whenever possible.

Wash at the lowest temperature possible resulting in hygienic dishes.

Dosage*

For perfect cleaning results, dose at a concentration of 1-2ml/l*.

At a concentration of 4ml/l, this product will prevent scale deposits in water containing up to 400ppm CaCO₃, 22,5°dH, 40°FH.

Actual dosage will depend on site conditions (water hardness, degree of soiling, procedures).

Avoid under or over dosing the detergent.

**This dosage is according to optimal conditions, recommendations may vary, please consult with your Diversey representative for directions.*

EU Ecolabel: SE/038/001

suma Jade Pur-Eco

L8

Technical data

Appearance:	Clear pale yellow liquid
Odour:	No Odor/Odorless
pH value (neat):	> 12
Relative density (g/cm ³ ; 20°C):	≈ 1.27

The above data is typical of normal production and should not be taken as a specification.

Safe handling and storage information

Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet; sds.diversey.com. Store in original closed containers away from extremes of temperature. Only for professional users / specialists.

Product compatibility

Under recommended conditions of use, Suma Jade Pur-Eco L8 is suitable for use on materials commonly encountered in the kitchen including aluminium. Use with care on copper or brass.

Environmental information

Suma Jade Pur-Eco L8 was awarded the license SE/038/001 fulfilling the EU Ecolabel criteria as an environmentally friendly product.
